

PROSTAT PRODUCT SEMINAR

See why Prostat is the Answer to Static Control

A FREE seminar designed to show you how Prostat is Your Solution for Process Analysis.

Our technical experts will explain the value of our products when it comes to ESD auditing, periodic verification and product qualification.

Additionally, you will see why we are the only ones providing the tools for Process Capability.

You won't want to miss this excellent opportunity and space is limited.

So contact Dou Yee Enterprises or register today at:
www.prostat-university.com

Features and Benefits of Prostat ESD Control products

Join us as Prostat technical experts provide you with valuable knowledge and learn how our products will help you control your ESD Control processes.

You will see how Prostat is the only provider of instruments that meets all of the ANSI/ESD S20.20 and ESD TR53 requirements.

You are invited to to join us for a full day and learn about the features and benefits of Prostat products. Registration is free but seating is limited. To guarantee your spot, contact Dou Yee Enterprises or register today at www.prostat-university.com.
